

Requirements for a Class II Time Trial

A Class II Time Trial is for swimmer(s) attempting to achieve a time which may qualify the swimmer(s) for entry into future meets. Class II Time Trials may be conducted on a less stringent basis than sanctioned meets. For example, several swimmers may swim at the same time, they need not be doing the same event or swimming the same stroke; they need not be the same sex, and two timekeepers per lane are sufficient. No Provincial or National records will be recognized from a Class II Time Trial.

Sanction applications for time trials are completed in the same manner as swim meets via Swimming Canada's RTR and must be submitted no less than 3 business days prior to the start of the time trial.

A time trial that will involve more than one club and have more than 50 swimmers shall be viewed as a swim meet, and thus, subject to the Swim BC Competition Surcharge of \$4.00 per swimmer. A time trial that involves only one club can have as many swimmers as the club wishes, and it is still considered a time trial; i.e., no Competition Surcharge will be levied.

A Class II Time Trial may only be conducted in one session (multiple sessions are not allowed). Awards are not to be presented at a time trial.

A time trial information package, in an editable format (MS Word, Pages, RTF, etc.; not PDF) must be submitted in the sanction application, noting the following:
