

Transitioning BCSSA Officials to SCN Certification Levels

Introduction

This document is meant to be used as a guide for the transition of BCSSA officials seeking certification as an SCN official in BC.

BCSSA applicants should be prepared to present their records of qualifications, certification documents and any other supporting information to a Level V official that has been designated as a mentor or guide by the ROD for their region.

The ROD (or their designate) should interview the candidate to understand their certification level, qualification and experience. Obviously every candidate will be different.

The differences in the rules between the two disciplines are in most areas are minor but there can be nuances that can be gained by experience only.

For each candidate different clinics/quizzes and evaluation may be grandfathered with the knowledge that the candidate has had experience in these areas as in the following sections

Clinics that are required may be done in a more informal setting if determined appropriate by the ROD. For example, stroke and turn clinics/quizzes and starter can be complete or done on more informal basis. If the evaluator of the candidate feels that they have read the rule book and experience, it can be simply doing the quiz and discussion of all the answers to ensure the differences in the rules are understood.

Any questions about or interpretation of this policy can be directed to officials@swimbc.ca

MAINTAINING CERTIFICATION

In order to remain an active Master Official in Canada an official must:

- work a minimum of four sessions over a minimum of two meets in each swim year;
- conduct or supervise a clinic in each swim year.

Master Officials who do not work or instruct as required may apply for reinstatement to their provincial chair of officials, who may require certain senior level clinics be re-done.

NOTES

"Certified" means that the clinic card shall be signed and dated by the Referee after working two sessions in that position during an S/NC sanctioned competition.

These certification procedures represent the minimum national standards; provincial sections may adopt additional requirements.

Comments about Starter in BCSSA

Starter's responsibilities in BCSSA are more involved.

In SCN the starter's responsibilities are only for the start unless otherwise given by the referee.

In BCSSA, the starter acts not only as a starter but as an assistant referee in many cases. They may handle DQ's being passed on to them (they may be located on the opposite side of the pool and Stroke on their side report to him/her).

They must take sweeps and they are on (or were) on equal footing to that of the referee.

Comments about Referee in BCSSA

Referee's role in BCSSA is smaller than SCN.

In SCN, the referee is responsible for not only the deck but all aspects of the meet.

In BCSSA:

- They are only responsible for the deck area.

- They are not responsible for the recording, Clerk of Course, marshalling unless otherwise ask for.

- They do not sign off either prelim or final heat sheets.

- They do not sign off on prelim or final results.

- They do not sign off on meet records.

- They are not usually responsible for alternates but is notified by the Clerk if an alternate is inserted.

- The Meet Recorder is in charge of times; but the referee does have final say in all decisions but normally does not get involved.
